

The space

Our artist residence, a wide peaceful bed room with shower and private terrace, located on the third floor of the art center, welcomes foreign artists every month.

How it works

The residents are invited for a full month to prepare for their exhibition, and propose art workshops, open to the public. The residents have access to our studio facility (outside class hours). If artists want to produce prints, two options are possible, either they pay the printing fee, or give half of the production to the gallery. In return of the residence the gallery asks for one design offered by the artist for the production of derived object sold in the boutique. The art center will not provide the artist's travel expenses, but will help the artist to find funding for the air fare. The artists in residence are not paid, but the gallery will support the production expenses related to the exhibition and the workshop.

Who can apply?

All artists are welcome to apply to the residency program. There is no age limit, and all art disciplines and nationalities are welcome. Please download the online application for further detail about our program.
